## EXPERIENCE

### AKSIGORTA A.Ş. (MAR 2020 · now)

#### Software Development

Uses: Spring Framework, JAVA, Maven, Rest API, Hibernate, OracleDB, Angular10+, HTML5, CSS3, Bootstrap  
I took part in web-based and continuously accessible, multi-user projects in the insurance industry

### XINERJI SOFTWARE (Nov 2018 · Mar 2020)

#### Software Development

Uses: Java, Spring Boot, Angular7-9, Jhipster  
I developed projects that produce logistics, defense and financial solutions in cloud-based and microservice architecture

### BILDAŞ TEKNOLOJİ A.Ş. (Feb 2018 · June 2018)

#### Software Development

Uses: C#, MVC, AngularJS, HTML5, CSS3  
I developed a cloud-based document management project using OCR technology

### ENİYİSEO.COM (Sep 2016 · June 2017)

#### Software Development

Uses: Wordpress, HTML, CSS, Illustrator, SEO  
We reviewed search engine algorithms released by google, and development special extensions. In this way we have created a blog where people can always access SEO information  
• [www.eniyiseo.com](http://www.eniyiseo.com)

### NETWORKS COMP. (Nov 2015 · Sep 2016)

#### Software Development

Uses: JAVA, Android Application, HTML, CSS  
We found the first company in Turkey at undergraduate level by collaboration of university and Düzce Techno park. We developed techno logic solutions and unique application ideas in this company

### FREELANCE (now)

With more than 6 years of software experience, I develop smart solutions and original applications.
